

YETZT

Bio

Yetzt are an Anglo-German band based in Berlin. Comprising of Kie Dawson, Tjorben Reimer, Felix Riedel, and Tobias Kraller, they play post-punk that's jittery and energetic, a sound that is seemingly about to fall apart, but that never does. Formed in late 2019, Yetzt have settled on a line-up and are releasing their debut EP on September 2nd. The first single from the EP 'MSYA' is out now.

Quote about the song:

MSYA was one of the first songs written for the band. It went through a few different versions of lyrics and music, especially once we started playing live frequently, until we got to a version we think suits the bands style and direction. It's one of our favourites to play at concerts, and it seems like one of the favourites of our fans to sing along to.
