COLD TRANSMISSION MUSIC

The spanish dark synth duo HUIR emerges with their first single!

Emerging from the vibrant city of Barcelona/Spain the brand new dark synthpop duo **HUIR** present their very first single "Vital"!

The song talks about feeling strong and not having the need, but having the ability to turn away from things or people that attract us but that, on the other hand, we know are not good for us. Enjoy life, look at the sunrise or sunset with a smile, live in the dark but be Vital.

Freshly signed to the German label **Cold Transmission Music**, the single is part of **HUIR**' s debut EP "Triumphal Arch Lovers" to be released in digital & physical format in early 2024. The EP is produced, mixed and mastered by Maurizio Baggio (Boy Harsher, The Soft Moon).

In December 2023 **HUIR** will also start their live activities by supporting the legendary **Chameleons** on their shows in Madrid (Dec 3rd) and Barcelona (Dec 7th).
